

ARE YOU POTHOLING WITH WATER?

HERE ARE 5 GOOD REASONS TO SWITCH TO AIR

- 1 AIR IS FASTER IN MOST SOILS
- 2 WITH AIR, SPOILS STAY DRY FOR USE AS BACKFILL
- 3 WITH AIR, YOU ARE NOT CREATING MUD... AND DISPOSAL PROBLEMS
- 4 AIR IS MUCH SAFER (FOR YOU & UTILITIES)
- 5 AIR WON'T DAMAGE ROADBASE (D.O.T. FRIENDLY)

These are the reasons why we offer the **SYSTEM 1000**, **SYSTEM 3000** and **SYSTEM 4000**... The only vacuum excavators that allow you to use AIR 95% of the time... while still having water capabilities available. At VACMASTERS we give our customers the tools they need for fast, clean, cost-effective and safe utility excavation.
